

## **MEDICAL WRITER**

### **Health Science Communications (HSC) - “Advancing Scientific Knowledge in Medicine”**

HSC is the leading medical strategy and communication agency specialized in providing services to pharmaceutical/biotech companies and professional organizations, located in New York City. HSC has set the standard for excellence in medical communications and education for more than 20 years. Our group of 120 talented professionals usually becomes involved with a product 1 to 3 years prelaunch to prepare the market. All of the work we do is scientifically and strategically focused. We partner with our clients’ teams to:

- Establish the disease
- Brand the science
- Generate the scientific language
- Engage key opinion leaders (KOLs)
- Generate disease and brand awareness
- Disseminate the right message

Top-line services offered by HSC include scientific platform development, gap analyses, strategic planning, publications and program planning and implementation, content development, live events, digital dissemination, and KOL management.

Our structure ensures **all** work we do is executed in-house and not subcontracted to third parties. Our key departments include:

- Account services—many professionals from industry who understand client needs
- Scientific services—over 22 MDs and PhDs who guide our scientific knowledge
- Creative and interactive services—award-winning talents who make each project outstanding
- Event planning—Certified Meeting Planners with many years of experience
- Support services—our dedicated behind-the-scenes group

### **Description**
