

FACULTY POSITION IN DIET, METABOLISM AND CHRONIC DISEASE CAUSE AND PREVENTION

Department of Nutritional Sciences and Toxicology, University of California,
Berkeley, CA 94720-3104

Position Title: Assistant Professor of Toxicology and Toxicologist in the Agricultural Experiment Station in the DNST with a 0% appointment in the School of Public Health

Date Available: July 1, 2005 or as soon as possible thereafter. Applications should be submitted by December 31, 2004. Applications postmarked after the deadline will not be considered.

Description: This will be a nine-month, tenure track appointment involving research and teaching at the graduate and undergraduate levels in the Department of Nutritional Sciences and Toxicology and the School of Public Health. Teaching assignments will include contributions to undergraduate and graduate courses in the area of toxicology, and the development of a course on the biochemical role of dietary components in the cause and prevention of chronic disease. The appointee is expected to have strong potential for developing an independent research program that involves applications of molecular and biochemical techniques in rodent models of human disease. Areas of interest include, but are not limited to, the use of cellular and whole animal approaches to investigate underlying mechanisms of, for example, the genetic bases for the effects of food components on carcinogenesis, immune function, atherogenesis, abnormal development, and aging.

The teaching responsibilities for this position would include the development of an upper division course that addresses the biochemical role of dietary factors in the cause and prevention of chronic disease.

The appointee may work with graduate students seeking advanced degrees in Molecular Toxicology, Molecular and Biochemical Nutrition, Comparative Biochemistry, Endocrinology, and related fields.

Qualifications: The applicant should hold a Ph.D. or equivalent degree, with training and experience in toxicology, nutrition or related area. The applicant should show promise in effective classroom teaching and for the development of a strong and well funded research program.

Rank and Salary: Assistant Professor; salary commensurate with qualifications and experience.

Documentation: Applications should be submitted to Dr. Hei Sook Sul, Search Committee Chair, Dept of Nutritional Sciences & Toxicology, 119 Morgan Hall, University of California, Berkeley, CA 94720-3104.

Applications should be accompanied by a complete curriculum vitae, a statement of research interests, copies of 2-3 publications related to current research interests, and a brief description of teaching and professional experience. Applicants should submit the names of at least three references that are able to evaluate the applicant's research and teaching potential.
